PROFESSIONAL SUMMARY

Aspiring AI Engineer and Machine Learning professional with hands-on experience in SQL, Python, Machine Learning, NLP, Transformers, Generative AI, LangChain, recommendation systems, and predictive modeling. Currently pursuing the Professional Program in Data Science and Machine Learning at Scaler Academy. Bringing 25+ years of professional experience in quality assurance, analytical problem-solving, process excellence, documentation review, and team leadership.

TECHNICAL SKILLS

Programming: Python, SQL

Machine Learning & AI: Scikit-Learn, NLP, Transformers (BERT/DistilBERT), Classification Models, Recommendation Systems, Feature Engineering, Generative AI, LangChain

Data Analysis: Pandas, NumPy, Statistics, EDA

Visualization: Tableau, Matplotlib

Tools: Git, GitHub, SSMS, Jupyter Notebook, Google Colab, Google BigQuery

FEATURED PROJECTS

- Target Brazil E-Commerce SQL Analytics

GitHub: github.com/MCPraveen1/Target-SQL-Business-Case

Analyzed 100K+ e-commerce orders using SQL and Google BigQuery. Performed trend analysis, customer segmentation, freight cost evaluation, delivery performance analysis, and payment behavior analysis.

- FlipItNews NLP Classification

GitHub: github.com/MCPraveen1/FlipItNews-NLP-Classification

Built an end-to-end news classification system using TF-IDF, Machine Learning, and DistilBERT. Achieved 97%+ accuracy through model evaluation and tuning.

- AI Website Summarizer

GitHub: github.com/MCPraveen1/ai-website-summarizer

Developed an LLM-powered web content summarization application using Groq APIs and prompt engineering.

- AI Model Arena

GitHub: github.com/MCPraveen1/ai-model-arena

Built a side-by-side LLM comparison platform for evaluating responses from multiple AI models.

- LangChain Shop Assistant

GitHub: github.com/MCPraveen1/langchain-shop-assistant

Developed an AI-powered shopping assistant using LangChain-based conversational workflows.

ADDITIONAL ACADEMIC PROJECTS

- Named Entity Recognition using BERT – Developed a Transformer-based token classification solution for entity extraction.
- Movie Recommendation System – Built collaborative filtering models using MovieLens data.
- Employee Attrition Prediction – Built ML models to identify attrition patterns and retention drivers.

CERTIFICATION

Professional Program in Data Science and Machine Learning – Scaler Academy

PROFESSIONAL EXPERIENCE

Quality Analyst | GHS AccuScript | Aug 2024 – Present

Quality Analyst / Team Lead | Alpha Technologies | Aug 2014 – Apr 2024

Earlier Roles: Team Lead/Editor – Nuance (2010–2014) | Team Lead – Perry Johnson

Outsourcing (2007–2009) | QA Analyst – Pradot Technologies (2005–2007) | Medical

Transcriptionist/QA – Heartland/KG (2000–2005)

EDUCATION

B.Com, University of Calicut, 1999
